

Workshop:

EWOG Pathology: MDS/MPN and MPN– clear cut or overlapping?

Date: Friday, September 19th, 2025,
2.00 pm – 3.00 pm
Venue: Hotel Estrel, Berlin, Germany
Organizer: Prof. Dr. med. Martina Rudelius; EWOG Germany

General Information:

Myeloproliferative neoplasms (MPNs) and MDS/MPN overlap syndromes of childhood are rare hematologic disorders that pose considerable diagnostic challenges. Clinical manifestations and morphological features often overlap, complicating clear classification.

Aim:

We invite pathology experts, aspiring scientists, and clinicians from around the world to share particularly interesting and challenging cases. Through these discussions, we aim to address current diagnostic challenges, highlight existing knowledge gaps, and foster international collaboration to advance our collective understanding of these diseases.

PARTICIPANTS: pathologists, scientists and clinicians

FORMAT: Hybrid – In-person and online
Includes case presentations and expert panel discussions

REGISTRATION: To register please send an email to info@ewogberlin2025.org

FEES

The workshop is free of charge. You have to be registered for the EWOG Symposium.

OFFICIAL LANGUAGE

English
